CONTROLTEK®
SOLUTIONS THAT PROTECT. PEOPLE THAT DELIVER.

WHO WE ARE

We are innovators. We are listeners. We are doers. And for over 45 years we've been helping companies solve their asset protection challenges in new, efficient and secure ways.

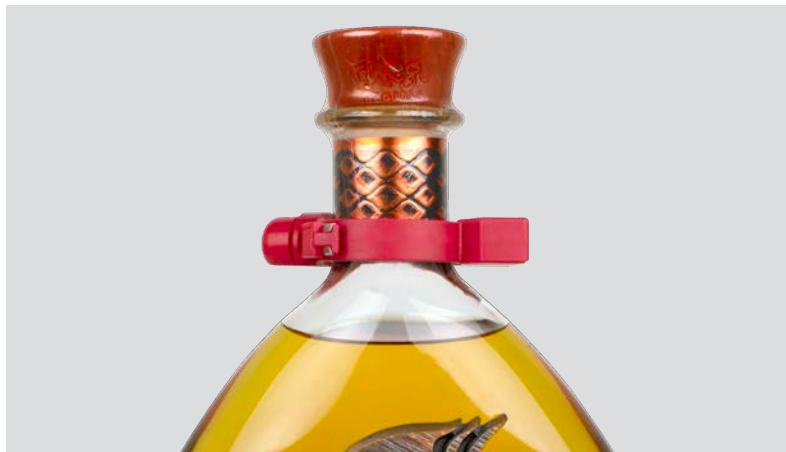

Our EAS and RFID solutions help some of the biggest retail chains protect their merchandise better and run their operations more efficiently.

And our tamper-evident security packaging is relied on by the nation's leading banks, armored couriers and retailers for transporting cash safely and securely.

As a second-generation family owned business, with a history of stable growth and a reputation for strong customer focus, CONTROLTEK continues to deliver on its core promise every day: provide solutions that protect and be the people that deliver.

EAS AND RFID TAGS

PADLOCK™

Loud and Proud

Common Applications

- Handbags and luggage
- Footwear
- Belts and accessories
- Coats and outerwear
- Hardware

Key Benefits

- EAS alarm and anti-tamper alarm
- Speaker grill and LED
- Multiple lanyard sizes available
- Replaceable lanyard for easy length adjustment
- Easy to apply and remove
- Available in one, dual, and triple-alarm
- Available in standard, super, and hyper lock

AM RF RFID

DUALTECH PADLOCK™

Dual Frequency Without Compromising Efficiency

Common Applications

- Handbags and luggage
- Footwear
- Belts and accessories
- Coats and outerwear
- Hardware

Key Benefits

- Dual AM and RF technologies
- High pick rate - equal pick rate for AM or RF
- EAS alarm and anti-tamper alarm
- Speaker grill and LED
- Easy to apply and remove
- Available in standard, super, and hyper lock

AM RF

PADLOCK™ MINI

Smaller Size. Just as Loud and Proud.

Common Applications

- Handbags and luggage
- Footwear
- Belts and accessories
- Coats and outerwear
- Hardware

Key Benefits

- EAS alarm and anti-tamper alarm
- Speaker grill and LED for visual deterrence
- Easy to apply and remove
- Small, light and unobtrusive to shoppers
- Available in standard, super, and hyper lock

AM RF

SLIMGUARD™

Slim Chances of Getting Defeated

Common Applications

- Lingerie and delicates
- Sportswear
- Hats, gloves, belts
- Footwear
- A variety of other uses

Key Benefits

- Small and light
- Highly versatile
- Easy to apply and remove
- Can be used with pin or lanyard
- Available in standard, super, and hyper lock

AM RF RFID

SHRINKBUSTER™

With the Name Like That It Needs No Introduction

Common Applications

- Apparel
- Outerwear
- Footwear
- Sporting goods
- Other versatile uses

Key Benefits

- High detection rate
- Light and unobtrusive to shoppers
- Easy to apply and remove saving your employees time
- Optional lanyard expands its uses
- Available in standard, super, and hyper lock

AM RF RFID

SHRINKBUSTER™ MINI

Small Package. Big Punch.

Common Applications

- Apparel
- Outerwear
- Footwear
- Sporting goods
- Other versatile uses

Key Benefits

- Sleek design with high detection rate
- Light and unobtrusive to shoppers
- Easy to apply and remove saving your employees time
- Optional lanyard expands its uses
- Available in standard, super, and hyper lock

AM RF

LOKTAG™ INK

Unparalleled Strength with Visual Deterrence

Common Applications

- Denim
- Apparel
- Designer wear
- Sportswear
- Coats and outerwear

Key Benefits

- High detection rate
- Light and unobtrusive
- Easy to apply and remove

AM RF

INKGUARD™

Visual Deterrence Like No Other

Common Applications

- Denim
- Apparel
- Designer wear
- Sportswear
- Coats and outerwear

Key Benefits

- Ink for strong visual deterrence and benefit denial
- EAS incorporated for added protection
- Light and unobtrusive
- Easy to apply and remove
- Available in standard, super, and hyper lock

AM RF

LOKTAG™

Unparalleled Strength in a Small Package

Common Applications

- Denim
- Apparel
- Designer wear
- Sportswear
- Coats and outerwear

Key Benefits

- Also available with ink for added visual deterrence and benefit denial
- High detection rate
- Light and unobtrusive
- Easy to apply and remove

AM RF

FLATGUARD™

The World's First Tag For Small Leather Goods

Common Applications

- Wallets and small leather goods
- Suits
- Scarves and ties
- Other versatile uses

Key Benefits

- Unique slim design unobtrusive to shoppers
- EAS and anti-tamper alarms keep thieves at bay
- Easy to apply and remove
- Sturdy construction, high quality ABS plastic
- Available in standard, super, and hyper lock

AM RF RFID

HALT

Uncompromising Strength and Visual Deterrence

Common Applications

- Sporting goods
- Hardware
- Outerwear
- Denim
- Other versatile uses

Key Benefits

- Extra-thick steel shackle for maximum strength
- Push-to-release feature for added protection
- Easy application and removal
- More economical than alarming tags
- Available in standard, super, and hyper lock

AM RF

HALT SLIM

Uncompromising Strength. Versatile Protection.

Common Applications

- Sporting goods
- Hardware
- Outerwear
- Denim
- Other versatile uses

Key Benefits

- Narrow steel shackle for versatile use
- Push-to-release feature for added protection
- Easy application and removal
- More economical than alarming tags
- Available in standard, super, and hyper lock

AM RF

HALT CABLE

Flexible Protection.
Strong Deterrence.

Common Applications

- Footwear
- Luggage
- Sporting goods
- Hardware
- Other versatile uses

Key Benefits

- Steel-reinforced cable
- Strong visual deterrence
- Easy application and removal
- Available in 28cm and 120cm lanyard
- Available in standard, super, and hyper lock

SURFACETAG™

Versatile and Unobtrusive
Protection

Common Applications

- Boxed merchandise
- Hanging items

Key Benefits

- Tag works with multiple carrier styles - flat box, corner, peg hook
- Tag easily inserts into carrier
- Easy to apply and remove
- EAS alarm and anti-tamper alarm
- Speaker grill and blinking LED for visual deterrence
- Streamlined construction saves shelf space
- Available in standard, super, and hyper lock

AM RF

MINISTICK™

Classic Design.
Strong Performance.

Common Applications

- Lingerie and delicates
- Sportswear
- Hats, gloves, belts
- Footwear
- A variety of other uses

Key Benefits

- Small and light
- Highly versatile
- Available in pin or lanyard variant
- Available in black and ivory
- Easy to apply and remove
- Available in standard, super, and hyper lock

AM RF

MINISTICK™ LANYARD

Classic Design.
Strong Performance.

Common Applications

- Lingerie and delicates
- Sportswear
- Hats, gloves, belts
- Footwear
- A variety of other uses

Key Benefits

- Small and light
- Highly versatile
- Easy to apply and remove
- AM, RF or RFID options
- Available with 3" or 15" lanyards
- Available in black or ivory
- Available in standard, super, and hyper lock

AM RF

THE BOXER™

It's So Tough We Considered
Buying It Gloves

Common Applications

- Boxed merchandise

Key Benefits

- Self-retracting lanyards for mess-free operation and storage
- Speaker grill and blinking LED for visual deterrence
- Replaceable battery saves money and the environment
- EAS alarm and anti-tamper alarm help keep thieves at bay
- Triple-alarm technology
- Medium and large sizes available
- Easy to apply and remove
- Available in standard, super, and hyper lock

AM RF

ALARMPIN

The Easiest Way to Add An
Alarm to Any Tag

Common Applications

- Apparel
- Outerwear
- Footwear
- Sporting goods
- Other versatile uses

Key Benefits

- Can be used with any pin tag to make it alarming
- EAS and anti-tamper alarms keep thieves at bay
- Strong visual deterrence
- Speaker grill and LED for visual deterrence
- Easy application and removal
- Available in one and dual alarm

AM RF

MINILITE™

Mini Tag. Max Deterrence.

Common Applications

- Jewelry
- Accessories
- Lingerie and delicates
- A variety of other uses

Key Benefits

- Small and light
- Easy to apply & remove
- Visual deterrence and EAS
- Available in pin and lanyard variant
- Available in black and gray
- Available in standard, super, and hyper lock

AM RF

MINILITE™ LANYARD

Mini Tag. Max Deterrence.

Common Applications

- Jewelry
- Accessories
- Lingerie and delicates
- A variety of other uses

Key Benefits

- Small and light
- Easy to apply & remove
- Visual deterrence and EAS
- Available in pin and lanyard variant
- Available in black and gray
- Available in standard, super, and hyper lock

AM RF

CLICKSTICK™

The No-Pin Tag

Common Applications

- Shoes and boots
- Leather goods
- Waterproof items
- Suits
- Outerwear

Key Benefits

- Clamps onto merchandise without poking holes
- Perfect for leather and waterproof items
- Easy application and removal
- Strong visual deterrence
- Available in standard, super, and hyper lock

AM RF

PINSAFE™

Lightweight Tag with Built-In Retractable Pin

Common Applications

- Denim and other apparel
- Footwear
- Sporting goods
- Swimwear and lingerie
- Other versatile uses

Key Benefits

- Retractable pin reduces employee injury
- No more lost pins!
- One-hand application and removal
- Protects items with our without puncturing merchandise
- Extremely tough and durable
- Available in super and hyper lock

AM RF

CROCOTAG

Say No to Holes

Common Applications

- Vacuum-sealed food products
- Difficult to protect items
- Various textured materials

Key Benefits

- Protects without piercing
- Robust construction
- Quick attaching and detaching
- Wide range of uses
- Strong visual deterrence
- Available in standard, super, and hyper lock

AM RF

SECURINGS

The Round, All-Around Solution

Common Applications

- Baby formula
- Cans
- Jars
- Hardware
- Merchandise with handles
- Other cylindrical merchandise

Key Benefits

- Opens completely and tightens easily for perfect fit
- Streamlined design saves shelf space
- Flexible, yet tamper-resistant
- Silicone liner protects merchandise and labels
- Multiple diameters available
- Available in standard, super, and hyper lock

AM RF

QUICKOPTICAL

Proven Protection for Eyewear

Common Applications

- Eyewear with wire frames
- Eyewear with plastic frames

Key Benefits

- Allows customer try-on
- Gentle on frames, tough on thieves
- Quick to attach and detach
- Space for custom labeling
- Available in wire frame and plastic frame variants

AM RF

OPTITAG

Versatile Tag to Protect Eyewear

Common Applications

- Eyewear

Key Benefits

- Fits different sizes of glasses
- Strong visual deterrence
- Easy application and removal
- Eliminates product lockdowns
- Available in standard, super, and hyper lock

AM RF

QUICKCAP

Putting a Cap on In-Store Consumption

Common Applications

- Wine
- Spirits
- Oil
- Other bottled products

Key Benefits

- Quick one-hand attaching and detaching
- Benefit-denial design prevents bottle opening
- Clear plastic allows unobstructed view of labeling
- Durable plastic for long term use
- Available in standard, super, and hyper lock

AM RF

BOTTLETIE™

Elegant Protection For Bottles of Any Size

Common Applications

- Wine
- Spirits
- Oil
- Other bottled products

Key Benefits

- Extremely tamper resistant with a strong visual deterrence
- Eliminates product lockdown
- Adjustable lanyard
- Easy to apply & remove saving time
- Available in standard, super, and hyper lock

AM RF

QUICKBOTTLE

Strong Protection.
Fast Checkout.

Common Applications

- Wine
- Spirits
- Oil
- Other bottled products

AM RF

Key Benefits

- Easy one-hand application and removal
- Streamlined construction saves shelf space
- Color-coding for different price ranges
- Flexible diameter fits different bottles
- Strong visual deterrence
- Available with metal construction for tougher protection
- Available in standard, super, and hyper lock

QUICKBOTTLE PLUS

Metal Construction.
Fast Checkout.

Common Applications

- Wine
- Spirits
- Oil
- Other bottled products

AM RF

Key Benefits

- Extremely tamper resistant
- Strong visual deterrence
- Eliminates product lockdown
- Adjustable to fit perfectly around the bottle
- Thicker ring makes cutting extremely difficult
- Easy to apply & remove
- Available in standard, super, and hyper lock

GRIPPER™ BASEBALL

A Sure Bet For Bats

Common Applications

- Baseball bats
- Fishing rods
- Tennis rackets

Key Benefits

- Perfect for hard to tag sporting goods
- Extremely strong and durable
- Allows open merchandising
- Silicone liner protects product finish
- Doesn't impact shopping experience
- Available in standard, super, and hyper lock

RF
ID

MEET THE SAM FAMILY.

Sleek Design. Proven AM Technology. First Time Right™ Installation.

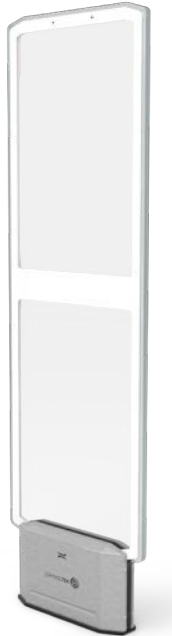

From 6- and 9-foot detection ranges to door-mounted or “invisible” floor installations, you’ll be sure to find an AM system to fit your retail environment.

Call us today to learn about our 5-year warranty and discover which SAM is right for you.

SAM1

Proven AM System With a 6' Detection Radius

- Easy to use dashboard for on-site management
- Network connection and I/O port for connecting to surveillance video or other LP systems
- Built-in AM jamming detector
- Remote tuning and management
- Made in Europe out of high quality materials
- Available options: people counter, remote management, metal detection and AM jamming detection
- 1 year warranty on parts and labor standard.
5 year warranty optional.

SAM2

Strength of Aluminum With Proven Electronics of the SAM1 System

- Aluminum construction for durability and aesthetics
- Easy to use dashboard for on-site management
- Network connection and I/O port for connecting to surveillance video or other LP systems
- Built-in AM jamming detector
- Remote tuning and management
- Made in Europe out of high quality materials
- Available options: people counter, remote management, metal detection and AM jamming detection
- 1 year warranty on parts and labor standard.
5 year warranty optional.

SAM9™

Proven AM System With a 9' Detection Range

Key Benefits

- Ideal for wide entry applications
- Easy to use dashboard
- Network connection and I/O port
- Built-in AM jamming detector
- Remote tuning and management
- Available options: people counter, remote management, metal detection and AM jamming detection

AM

SAM-D™

Low-Profile Design with Proven AM Technology

Key Benefits

- Slim-profile, door mounted AM system
- High detection of hard tags and labels
- Oscilloscope function to view ambient noise environment
- Dual relay alarm outputs for external triggering
- Optional IP-managed internal people counter, remote maintenance and tuning
- Optional jamming detection with distinct alarm

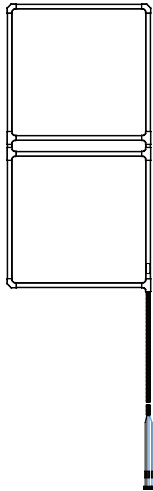

AM

SAM-F™

Concealed Design with Proven AM Technology

Key Benefits

- Below floor “invisible” system for shoplifting protection
- Suitable for wide entry applications
- Audible alarm feature for notification of detection events
- Networking capability for remote diagnostics and tuning
- Energy efficient system

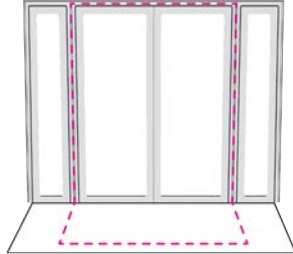

AM

SAM-I™

“Invisible” Design with Proven AM Technology

Key Benefits

- Concealed AM system installed inside door frame
- High detection of hard tags and labels
- Dual relay alarm outputs for external triggering
- Optional IP-managed remote maintenance and tuning
- Optional jamming detection with distinct alarm
- Energy efficient
- Can be installed to fit most door sizes

AM

HYPERGUARD *Alert Systems*™

Detects booster bags and stops shoplifters before they can make their move.

- Highly effective at detecting booster bags at the entrance
- The alarm discourages shoplifters from even attempting theft
- Proven at over 100,000 retail locations worldwide
- Available as a standalone pedestal or as an add-on to an EAS system
- API for easy integration with EAS (RF or AM)
- Proprietary algorithm prevents false alarms from shopping carts and moving doors
- 1 year warranty on parts and labor

APPARELGUARD *Alert Systems*™

Detects metal detachers and catches the shoplifters in the act.

- Highly effective at detecting magnetic detachers in fitting rooms
- The alarm allows the store personnel to stop theft before the shoplifter tries to flee
- Simple installation and operation
- API for easy integration with EAS (RF or AM)
- Can be tuned for different types of detachters
- 1 year warranty on parts and labor

FIRST TIME RIGHT™ PROGRAM

Who has the time to do the same job twice? That's right – no one. This rather simple insight led the leadership of CONTROLTEK to make First Time Right the cornerstone of their business. “We believe that it's no longer enough to do the job right for the customer – everyone expects that,” says Dave Hardeman, the company's Director of Client Solutions Delivery. “To truly deliver value we have to save every minute of client's time possible.”

CONTROLTEK's Mechanisms for Ensuring First Time Right Delivery

- Professional CAD designs and drawings which provide details to meet the requirements for approved placement of technology solutions
- Customized packaging and delivery options to significantly reduce lost or delayed product shipments
- Audit process formats that offer a consistent data tracking and measurement approach
- Scope of Work frameworks designed to enhance the services of third party vendors working with or near CONTROLTEK products
- Network mapping and secure interface management reference documentation which respects the connectivity safety concerns of Information Services
- Video tutorials designed to enrich the understanding of CONTROLTEK products and their overall purpose

PROFESSIONAL SERVICES

We want to make our customers' lives easier. This is why we have assembled a team of retail and technology experts who know how to make a new technology solution work in the retail environment.

Working With Your IT Department

Nothing can slow down the deployment of a new loss prevention system like the IT approval processes. Fortunately, our technology and retail veterans have been through the process many times before, and can help with filling out the documents, risk assessment and threat analysis. We speak the same language as your IT department and can work with them side-by-side to assist in the deployment of your new solution so that you can concentrate on your work and not worry about the technical side of things.

ROI Analysis and Documentation

To help you win the approval and budget in the boardroom, we use industry data to help create a substantiated ROI story. Through use cases and ROI calculations, we can help your organization understand how the investment will impact the bottom line in expected and often unexpected ways: from lower shrink, to better inventory management, merchandise availability, and the resulting sales lift and customer retention.

Training of Your Associates

CONTROLTEK knows that one of the keys to a successful adoption of a new solution is training. This is why we work directly with your AP team or training department to develop materials on proper application and removal of tags, use of systems and any other solutions. Our Professional Services team is ready to help throughout the process with videos, cheat sheets and webinars, and is also available to answer questions as they come up.

CASH SECURITY

Every dollar in your possession right now has been inside a CONTROLTEK bag. This is because our security packaging has proven itself to be so effective that the nation's top banks and government entities have relied on it for decades. CONTROLTEK's line of cash deposit bags can help you reduce internal theft, speed up your investigations and make cash handling simpler than ever before.

SafeLOK®

The Cash Bag Retailers Love the Most

- 8 security features alert you if tampering is attempted with heat, cold, fluids, chemicals or mechanical tools
- Large serial numbers for easy viewing on CCTV speed up investigations
- Specially formulated material that's light and thin yet exceptionally strong
- Easy to use

TripLOK®

The Cash Bag Retailers Love the Most

Providing a perfect balance of security and ease of use, SafeLOK is ideal for retail applications where quick training of new employees is important. Our patented security features alert to attempted theft, while our Press2Lok technology makes using the bag easy for your associates.

CoinLOK®

The World's First (And Strongest!) Plastic Coin Bag

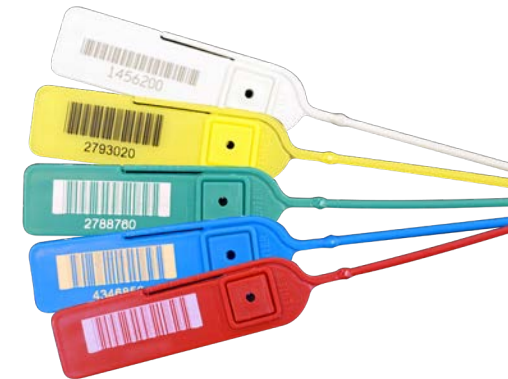

Used every day by major armored couriers and banks, CoinLOK provides the convenience of a single-use bag while matching the strength of many reusable bags. CoinLOK fits all major coin counters and sorters, improving efficiency and security of your coin processing.

SECURITY AND OPERATIONAL SUPPLIES

In addition to our core product offerings, CONTROLTEK also provides the much-needed but often overlooked security and operational supplies. If you don't see what you are looking for in this mini catalog, contact your CONTROLTEK representative and we will be happy to source it for you.

Security Seals

CONTROLTEK offers security seals for multiple retail applications: from the pharmacy department, to fire exits, to delivery trucks. Different styles, materials and colors are available.

Security Labels

Used widely by gas stations and ATM machine operators, CONTROLTEK's tamper-evident security labels have found a number of retail uses: pharmacy containers, fire doors, gun lockers and cabinets with critical equipment are just a few of them.

Counterfeit Detection

Reduce the chance of receiving counterfeit currency with one of many detection solutions from CONTROLTEK: from simple and cost-effective pens to more robust ultraviolet machines designed for high throughput.

CONTROLTEK *by the numbers*

45+ years in asset protection business.

50,000 individual locations shipped to annually.

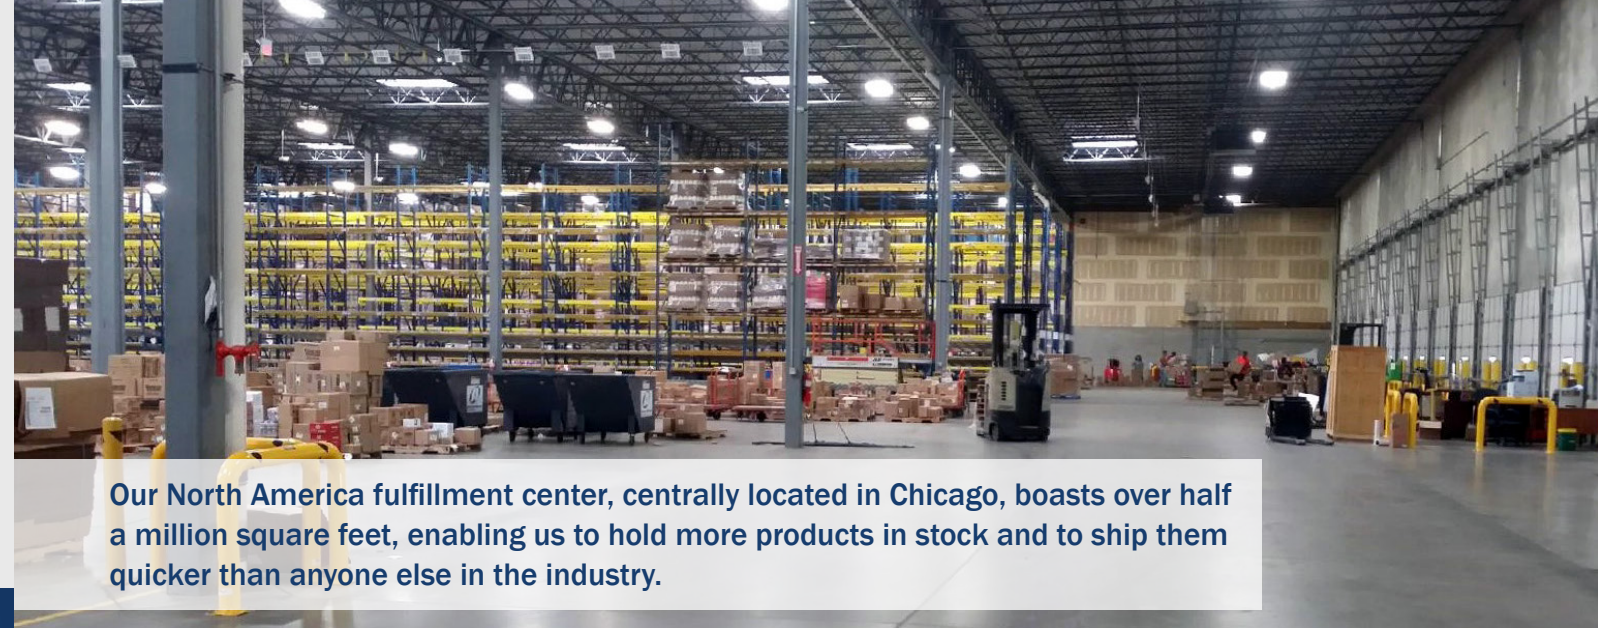

\$1 TRILLION+ transported in our security packaging yearly.

10,000+ EAS and RFID Systems installed since 2017.

97%+ of installations completed on the first visit. (First Time Right program)

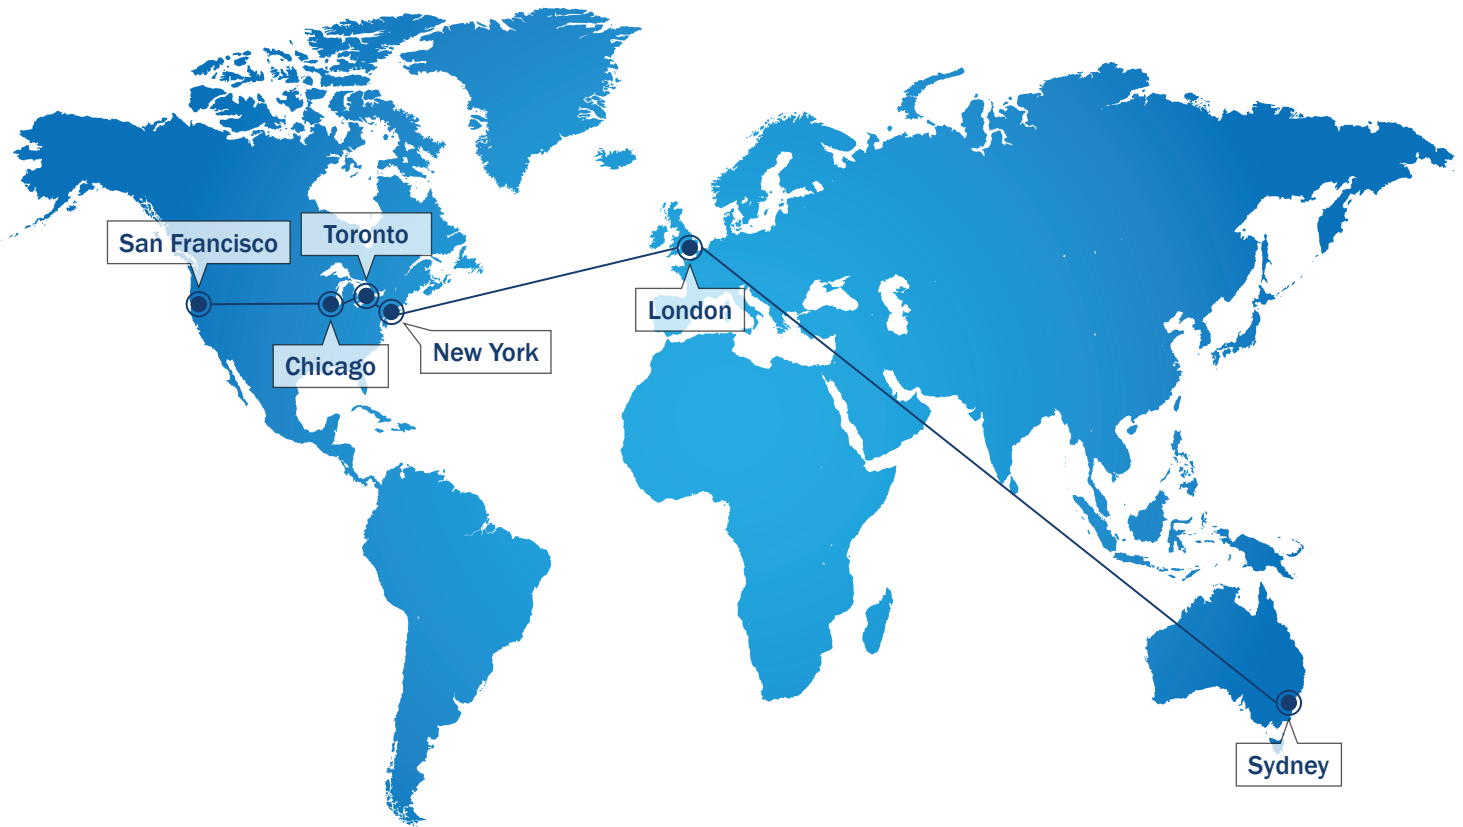

81% of service calls on RFID systems resolved remotely.

500,000 sq. ft. distribution center capable of rapid delivery anywhere in the U.S.

Our North America fulfillment center, centrally located in Chicago, boasts over half a million square feet, enabling us to hold more products in stock and to ship them quicker than anyone else in the industry.
